

The goal of UCP/Detroit is to promote "Life without Limits" by working to advance the independence of all people with disabilities, supporting their right to self-determination and community inclusion.

The goal of the Annual "Life without Limits through Assistive Technology" Conference is to provide resources to families and individuals with disabilities and to professionals serving people with disabilities.

The Mission

The mission of United Cerebral Palsy of Metropolitan Detroit is to advance the independence of all people with cerebral palsy and other disabilities by supporting their right to self-determination and inclusion through programs that focus on person centered advocacy, employment and assistive technology.

Vision

It is our vision to be the pre-eminent non-profit organization that provides resources, support and advocacy to empower people with disabilities, their families and allies to lead self-determined lives.

Core Values:

We are dedicated to creating life without limits by:

- Acting ethically with the highest level of honesty and integrity
- Collaborating with others who share our mission and vision
- Empowering people to lead self-determined lives
- Being a supportive resource for people with disabilities, their families and allies
- Being accountable to the people we support and who support us
- Promoting inclusion by working with a diverse population of people with any disability
- Creating dynamic solutions through innovation

DoubleTree by Hilton Hotel Detroit-
Dearborn

5801 Southfield Expressway
Detroit MI 48228

Assistive Technology

Assistive Technology (AT) is any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of individuals with disabilities.

AT equipment gives people the tools to do things they might not otherwise be able to do, whether that is communicating spontaneously, controlling the environment, or being able to perform a job via a computer.

Living life without limits
for people with disabilities

Conference Itinerary

EXPO

The Expo will include vendors that can either provide assistive technology products or help you learn to navigate the process of obtaining assistive technology products.
